7. Others (If any)

Mr.Chatchai Mongkolpun minority shareholders holding 59,400 shares, raised questions to the meeting and Khun.Thirasak Vikitset Managing Director, answered the said questions as follows.

Question 1 In 2012, sales export decreased 12%, the Company's results of operations by segment decreased from 7% to 3%, which will see that the company had adjusted domestic sales strategy which grew only 5% in order to compensate the lost sales. What caused it? How is the future tendency?

Answer 1 The main reason for export sales decreased due to major of export markets is UK market, which for the past 2 years UK was experiencing an economic slowdown coupled with UK has trading with EU which is facing a decline in purchasing power resulting in sales of the company decreased as well.

Also, the value of the pound sterling decreased comparing with baht currency nearly 20% within two years, causing sales of the company decreased. Hence, if the company wants to do trading with UK, the company has to lower the price in order to get sales. It is believed that in the future if the UK economy has recovered this will result in sales and margin increased.

Question 2 Four months passed by, baht currency is still strong. How do we do to solve the said problem?

- Answer 2
1. Find new market.
 2. Sourcing new products with value added in order to achieve good margin.
 3. Sourcing new materials to reduce cost of the company.

But for the fluctuation of money, it is challenging for us to manage.

Question 3 In 2012, do we set target to grow or not? How?

Answer 3 The company's target to grow depends on finding new customers and retain existing customers to enable customers to purchase products from the company rather than competitors.

Question 4 In the next 3-5 years, how to do with the market?

Answer 4 We believe that we remain competitive throughout. Finding new customers, to create new products that add value to the company in order to meet the needs of consumers at prices that satisfy consumers.

Question 5 Which country is the company going to for new market?. And how its potential?. Is it enable to replace UK market or not and how to?

Answer 5 The company began expanding markets in Asian starting with Indonesia. In short term, it may not be able to replace sales in UK. Meanwhile, sales in the UK has potential to improve. The company has followed up and met customers closely.

Question 6 Sales improved, how about margin? At present, it decreases down to 3%.

Answer 6 The management's challenge is how to improve cost. Whether it is the matter of wages, cost of raw materials and packaging. We must find new sources, negotiate in order to make the cost better than this. Margin is likely not lower than this.

Question 7 Investment budget, our markets have not grown enough but paid a lot of dividend.

Answer 7 We already have invested in production capacity but incidentally faced with order slow down caused us facing issues. Currently we have enough capacity since the invested capacity is higher or equal to the new international standard ISO 2276 issued which exporters to Europe must have. Coupled with GMP management process causing the companies which its size are not big enough will have hard time to compete with us. So, the company is also listed as customers' global suppliers.

Question 8 Domestic cosmetics market has grown up a lot but importing cosmetics from overseas to be sold in the country are also increased. Has the company benefited from the growth?.

Answer 8 The company has benefited from the growth of domestic cosmetics market which is to grow along with size of its market as well. However, imported cosmetics is in different segment of the company's cosmetics.

Mr.Chayapon Prasertkamolchai minority shareholders holding 1,000 shares raised questions to the meeting and Khun.Thirasak Vikitset, Managing Director, answered the said questions as follows.

Question 1 The baht has strengthened. How concrete object does the company manage foreign exchange risk?

Answer 1 The company has managed foreign exchange risk since we have made a significant export for almost 5-10 years ago. We hedge including natural hedge or buy - sell the same currency such as we sell products in yen we also buy raw materials in yen.

Question 2 What are the main currencies the company buy and sell?

Answer 2 The company has been trading with US, YEN, POUND currencies. In addition, the company also buys - sells in baht currency.
